4. [redacted] has completed his survey of NPIC communications requirements. On 28 July he briefed the D/CO and D/NPIC on his survey and made the recommendation that, in view of impending major changes in NPIC communications activity, OC should assume an expanded role in supporting NPIC communications programs. That recommendation is now being considered by NPIC.

SUBJECT: Weekly Report

5. The D/CO and a member of the OC Communications Security Division met with Mr. Carl Brown, Executive Secretary of the National Communications Security Committee. The D/CO used the opportunity of that get-acquainted meeting to reaffirm the Agency's support of the concept that there should be a "national" cryptographic clearance (with polygraph interview) for all civilian federal employees who have access to cryptographic material.

25X1

8. A UTX-1200 secure telephone switch has been installed in the Key Building, checked out, and accepted. The switch will be placed in service when air conditioning is provided to the Communications Equipment Room which houses it.
